

WINManage Professional Operation: In-Class Course

Part Number: RW-8410-3110

Course Duration: One (1) day

Prerequisites:

- RF fundamentals
- Networking 101 or previous network experience
- Completion of RADWIN PtP and/or PtMP Professional course

Target Audience:

- Distributors
- Partners
- System Integrators
- T1 / T2 Support Engineers

Course Description:

This course introduces RADWIN's WINManage Management Platform. The course is aimed at network operators who are seeking to effectively manage, control, monitor, troubleshoot and optimize their networks. The course includes theoretical introduction and practical training of the WINManage platform.

Certification Conditions:

Upon completion of the course, the participants will receive certification, subject to the successful fulfillment of the following conditions:

- The trainee must participate in all the theoretical sessions and complete all hands-on training.
- The participant must pass the final exam.
- The certification qualifies access and usage of the WINManage tool.

Course Objectives:

Upon completing this course, participants will have a solid understanding of:

- WINManage platform hardware requirements
- WINManage installation options
- WINManage license packages
- WINManage installation and configuration procedures
- Network discovery and provisioning procedures
- RADWIN network monitoring
- Alerts capabilities
- Network troubleshooting using alarms
- SNMP traps configuration
- WINManage report usage
- Jobs scheduling
- Administrative procedures such as user management, data security, backup/restore, etc.

Provided collateral:

- PDF copies of the course presentations

Course Agenda¹

Time / Day	Day 1
