

## RADWIN Remote Lab

**Part Number:** RW-8410-5003

**Enrollment:** Six (6) maximum

**Target Audience:**

- Distributors
- Partners
- System Integrators
- T1 / T2 Support Engineers

### Course Description:

RADWIN remote lab is designed to provide a remote hands-on solution for RADWIN training attendees. The lab provides the access to the configuration interfaces of RADWIN Point-to-Point and Point-to-Multi-Point equipment and OSS tools.

The remote lab allows up to 6 concurrent practicing sessions. The lab session is always scheduled and supervised by the RADWIN trainer over a remote webinar.

### System requirements:

- Stable internet connection
- Web browser (Chrome)
- Remote Desktop (RDP) client enabled
- Screen resolution: at least Full HD (1920x1080)
- Installation of webinar software on participant's PC/laptop
